

Carbon-Monroe-Pike Mental Health and Developmental Services

Tina L. Clymer, MS, LPC

Carbon-Monroe-Pike Early Intervention Program

Child's Name: _____

The Office of Child Development and Early Learning (OCDEL) and the Office of Medical Assistance Programs (OMSP) concur that Early Intervention services are generally not covered by Third Party or Private Insurance (TPI). However, some services provided are eligible for Medical Assistance (MA) reimbursement.

To meet the requirements related to MA billing, the Infant/Toddler EI Program must obtain TPI information from the family to be used in securing and documenting a denial of coverage so services can be billed to MA.

I understand that **under no circumstance will EI services be billed to Third Party or Private Insurance.**

.....
